- Sustainable Livelihoods
- Migration and Relocation

About CRF

MacArthur
Foundation

The Climate Resilience Fund (CRF) CRF's mission is to mobilize the resources necessary to build a climate resilient society. CRF is currently in a development phase with plans to launch programs and regranting operations in 2017.

- **CRF's builds** climate adaptation capacity and fosters resilience outcomes in communities across the U.S. and for the natural systems on which they depend.
- **CRF engages** partners in the philanthropic, NGO, and academic communities, and federal agencies to catalyze and leverage investments in climate adaptation services and outcomes.
- **CRF facilitates** coordinated and collaborative grantmaking through our Partners Alliance and provides regranting services for philanthropic organizations.

Objectives: Funders Survey

Understand current philanthropic activities and interest in climate mitigation, adaptation, and resilience

Identify similarities, overlaps, and gaps in funding priorities

Devise interest/need for funders working group on adaptation and resilience

Identify potential interest in adaptation and resilience related topical issues for working group

Identify potential participants/contributors in working group

Methods: Survey

- Designed in collaboration with representatives from CRF, Oak Foundation, and the Climate and Energy Funders Group
- Administered through Climate and Energy Funders Group
 - Environmental Grantmakers Association
 - The Funders Network
 - Food and Agriculture Sustainability Funders
 - Indigenous Funders Group
 - International Funders for Indigenous Peoples; International Human Rights Funders Group
- Ran from May 20th to June 10th, 2016

Respondents

- Sixty six foundations
- Respondents:
 - 28% program directors
 - 25% executive directors
 - 21% program officers
 - 26% others (e.g., presidents, communication officers, trustees, board members)

Topical Areas of Focus

Percentage of Survey Respondents

Climate Adaptation Investment Areas

Key Constituencies

Over 50% of respondents identified **rural areas or regions** (61%), low income or socio-economically **disadvantaged communities** (57%), or **indigenous populations** (52%) as key constituencies or target audiences.

Integrating climate change into grantmaking

- **46% encourage** grantees to consider climate change impacts or trends
- **17% encourage, enable, and require** grantees consider climate change

Integrating climate change into grantmaking

- **Encourage:**

- “We issued a report detailing relevant climate change impacts and reference it as rationale for our grants, and ask grantees to ID how they're addressing these regional impacts (or others).”
- “We normally do this by issuing queries as we review grant proposals”

- **Enable:**

- “We support supplementary training...support for research and analysis of climate impacts, funding of climate resilience projects”

- **Require:**

- “If they don't incorporate climate action as a priority for their organization, we don't work with them.

- **None:**

- ✦ “Not exactly....but would like to talk about it.”

Interest in developing an adaptation and resilience working group

- **90%** interested in learning more about climate change as it relates to existing program focal areas.
- **84%** interested in participating in a philanthropic working group on adaptation and resilience.
- **67%** interested in contributing to programming of working group.

Percent of respondents expressing interest in participating in a foundation affinity group on adaptation

Cross cutting themes and approaches

Key Take-Aways

- Philanthropic Interest in Climate Adaptation is significant
- Foundations are employing a variety of approaches to incorporating climate considerations into grantmaking
- Foundation representatives are eager to learn more about how to address climate impacts and advance climate action
- Importance of social equity within climate action agenda stands out
- There is significant interest in the development of a philanthropic adaptation and resilience working group

Areas for further inquiry/analysis

- Continue sharing survey results
- Initiate a working group(s)?
- Create online platform to build communities of practice and track field?
- Develop common terminology
